#### Personal protective equipment

- Respiratory protection : No personal respiratory protective equipment normally required.  
Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.
- Filter type : Particulates type
- Hand protection
- Remarks : For prolonged or repeated contact use protective gloves.
